ADITYA SAI

ASSOCIATE PRODUCT MANAGER | Delhi, India | +91 92055 86101
royaditya2019@gmail.com | linkedin.com/in/adityasai26

SUMMARY

Technical product candidate with Associate Product Manager experience and hands-on exposure to AI-enabled content and voice workflows. Experienced in user and competitor research, roadmap prioritisation, funnel and NPS analysis, cross-functional delivery and full-stack product execution. Currently contributes to AI filmmaking initiatives at PhysicsWallah; projects include a guarded AI voice agent and an AI resume/interview coach.

EXPERIENCE

PhysicsWallah (PW) — AI Trainee (Apprenticeship) | **Noida, Hybrid | Feb 2026 – Present**

- Contributed to 20+ AI filmmaking projects for the PW App / PI section, supporting AI-enabled content production.
- Researched and tested 30+ AI tools to inform content-production workflow decisions.
- Coordinated with 8+ creative and production team members; managed timelines, deliverables and stakeholder communication.
- Tracked content metrics and contributed to content-performance improvement; specific KPI and measured impact not supplied.

HighFurries — Associate Product Manager | **Dwarka, Delhi | Jan 2025 – Jan 2026**

- Ran user research and competitor analysis to define requirements and prioritise the roadmap using RICE and MoSCoW for a 2–3 person product team.
- Owned research for the doctors database and partnered with design and engineering on the “AI Disease Scan” feature from requirements through deployment.
- Supported third-party API integrations and frontend performance optimisation as part of feature delivery.
- Planned and ran “Paint with Pets”, a live customer-engagement event that achieved an 80% conversion rate.

AI & PRODUCT PROJECTS

PayRevive — AI Voice Agent for Payment Recovery | **Razorpay AI Buildathon, Track 3 | payrevive.xyz**

- Defined a payment-recovery product concept for merchants to detect failed payments, diagnose causes and initiate recovery through Hinglish voice calls.
- Specified a deterministic policy engine with a 50K autonomous action ceiling and an audit trail to make automated decisions more bounded and traceable.

PrepSense — AI Resume Analyzer & Voice Interview Coach | **prep-sense-kappa.vercel.app**

- Scoped an AI platform for job seekers covering ATS resume scoring, role-specific rewrite suggestions, voice mock interviews and progress tracking across sessions.
